

Circuito di Daytona Daytona Circuit

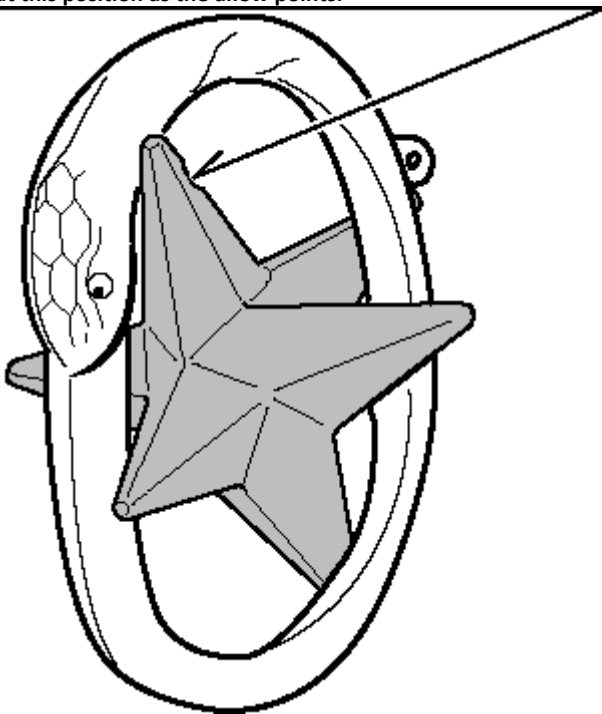

Step 1

Turn the star so its shortest leg comes into this position.

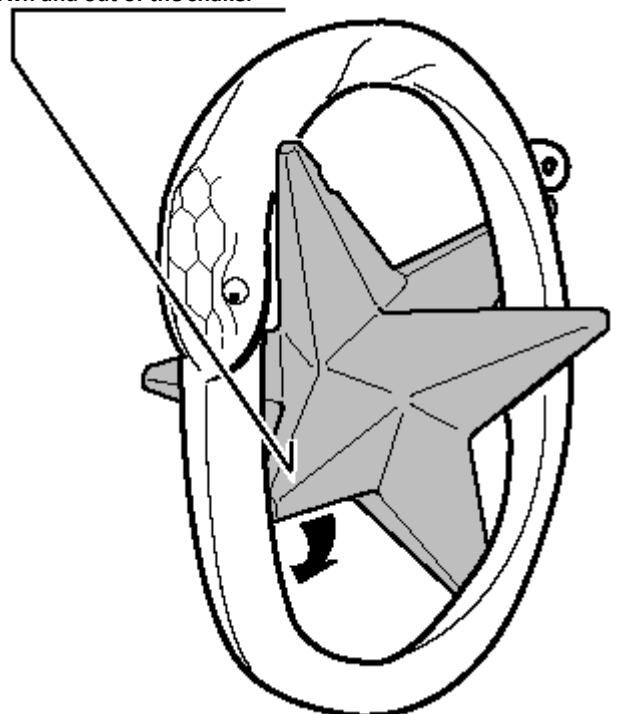

Step 2

The indentation made by a protruding pin when this was shaped should be seen at this position as the allow points.

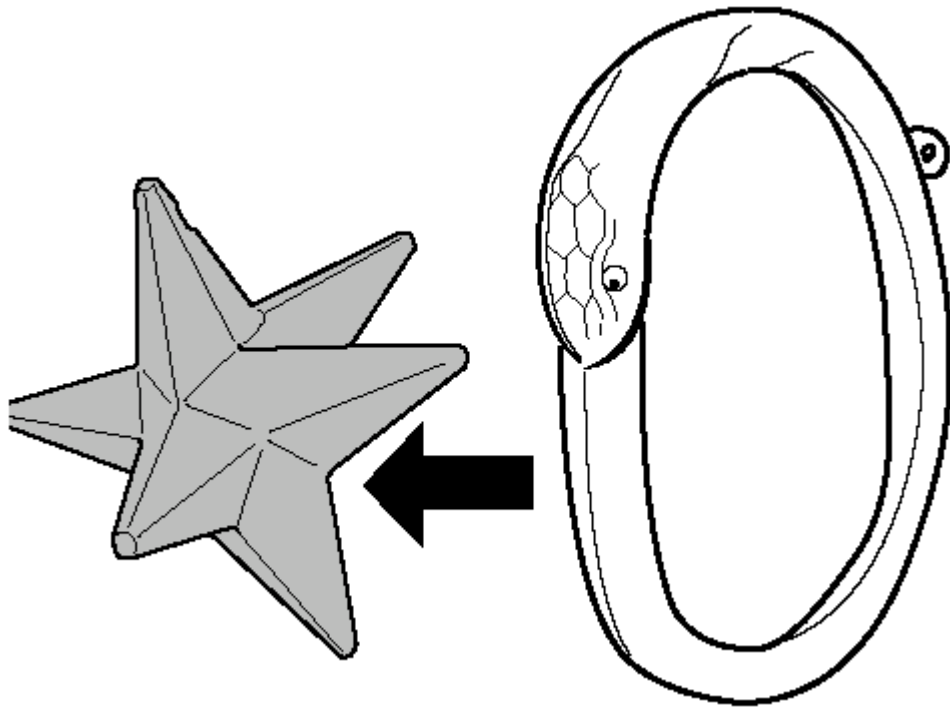

Step 3

Once you find the right leg of the star, move the shortest leg down and out of the snake.

Step 4 The star comes out freely

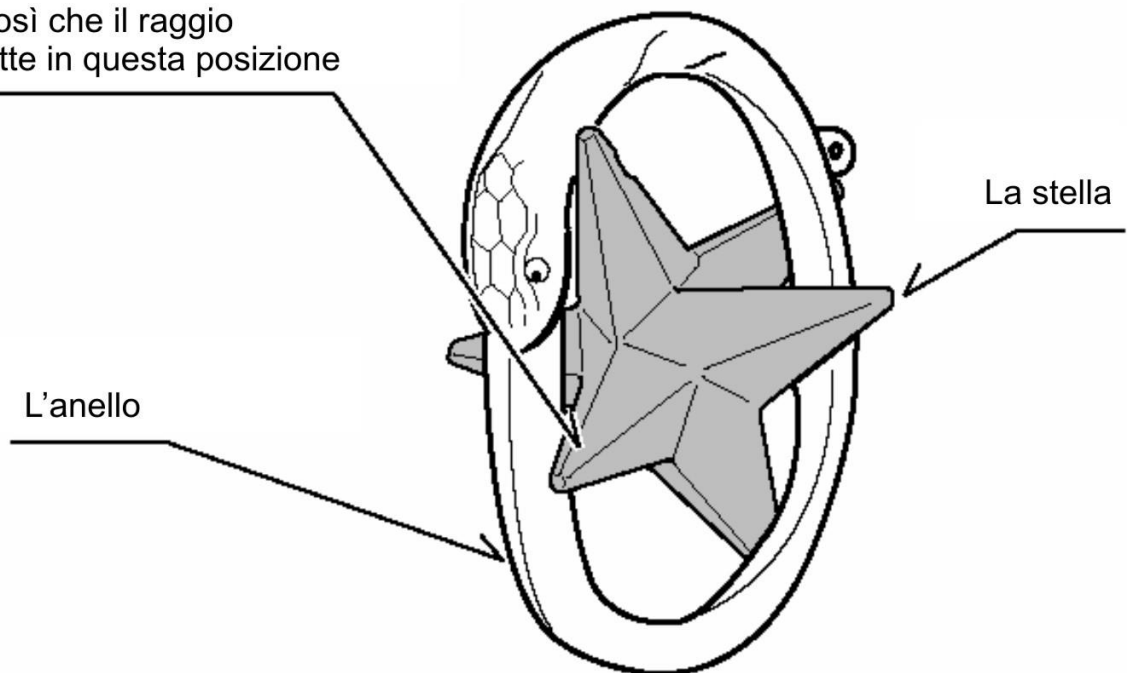

To attach:

Take the reverse steps from end to beginning!

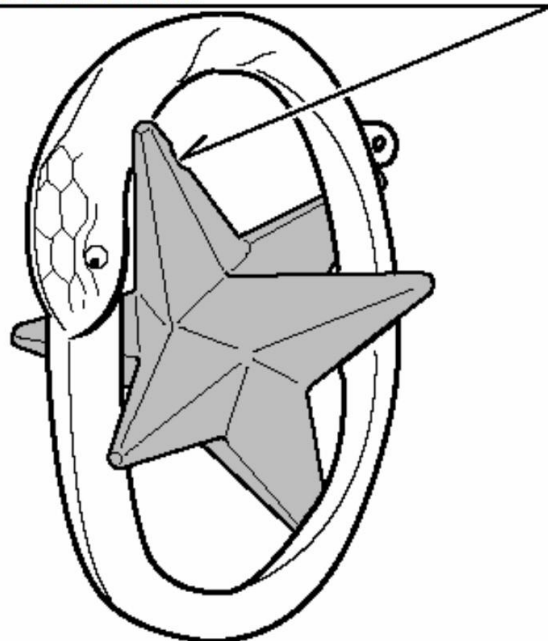

Passo 1

Gira la stella così che il raggio più corto si mette in questa posizione

Passo 2

La rientranza fatta da un perno di sporgenza quando questa si era formata dovrebbe essere vista in questa posizione come fa vedere la freccia.

Passo 3

Una volta trovata la giusta gamba della stella, sposta la più corta sotto e fuori dal serpente.
