

# Hamburg Knots

**CHALLENGE:** Free the clips and put it back to the starting position

**To Free:**

1. Start from the position of step 1. Move the small left ring through the largest ring in the middle.
2. Move the small left ring over the middle string. Meanwhile pull down the middle knot and slide the small left loop over the loop (as depicted in step 2). Then you will reach the position of step 3.
3. After the left ring passes the loop, pull the entire knot into the front (step 3).
4. As depicted in step 4, pass the ring on the right side through the knot that was pulled forward in step 3.
5. Pull the entire knot back again (step 5).
6. Order the strings as in step 6 and pass the ring through the middle loop once again (as in step 6).
7. Now the two rings should be in the same loop

**To reassemble:**

Do the reverse actions.
